CLEAN

These days, corporate image is more important than ever. Organisations spend enormous amounts of money creating a favourable impression. You have to be the best in everything you do. Every detail of your business is under constant scrutiny: from your annual report, to the reception area- nothing escapes your client's notice.

### **Improve your image. Self-motivated supervision.**

It takes more than a 'good clean' to create the right impression and pass the 'White Glove' test. It takes dedication, attention to detail, and perhaps more importantly, the self-motivation of seeing a job well done. A quality all our staff takes pride in.

### **Proactive responsibility.**

When you commission International Cleaning Services to provide your organisation with hassle-free, 5 star cleaning, you get much more than you bargained for. You also engage a squad of highly trained professionals dedicated to making your business look its best, every time ! Without the hassle you may have come to expect from other cleaners.

### **Good 'old fashioned' values.**

No matter how much we all rely on advances in technology to improve our daily life, there are a few things technology cannot match up to: a good pair of eyes and plain 'old fashioned values'. Fortunately, two qualities International Cleaning Services have in abundance.

### **A family business with 40 years experience.**

International Cleaning Services is justifiably proud of its unblemished record - working 'hand-in-glove' with a variety of clients, both large and small, for over 40 years. Responding to the needs and demands of some of the country's leading brands, commercial offices, serviced apartments, and international hotels.
